

The Plasma Pharmacokinetics of R-(+)-Lipoic Acid

cited in the following articles (listed chronologically);

Shay KP, Moreau RF, Smith EJ, Smith AR, Hagen TM.

[Alpha-lipoic acid as a dietary supplement: Molecular mechanisms and therapeutic potential.](#)

Biochim Biophys Acta. 2009 Aug 4. [Epub ahead of print]

Stabler SP, Sekhar J, Allen RH, O'Neill HC, White CW.

[alpha-Lipoic Acid Induced Elevated S-adenosylhomocysteine and Depleted S-adenosylmethionine.](#)

Free Radic Biol Med. 2009 Jul 16. [Epub ahead of print]

Salinthonne S, Schillace RV, Marracci GH, Bourdette DN, Carr DW.

[Lipoic acid stimulates cAMP production via the EP2 and EP4 prostanoid receptors and inhibits IFN gamma synthesis and cellular cytotoxicity in NK cells.](#)

J Neuroimmunol. 2008 Aug 13;199(1-2):46-55.

[Sengupta R, Billiar TR, Atkins JL, Kagan VE, Stoyanovsky DA.](#)

Nitric oxide and dihydrolipoic acid modulate the activity of caspase 3 in HepG2 cells. Center for Free Radical and Antioxidant Health.

[FEBS Lett.](#) 2009 Oct 9. [Epub ahead of print]
